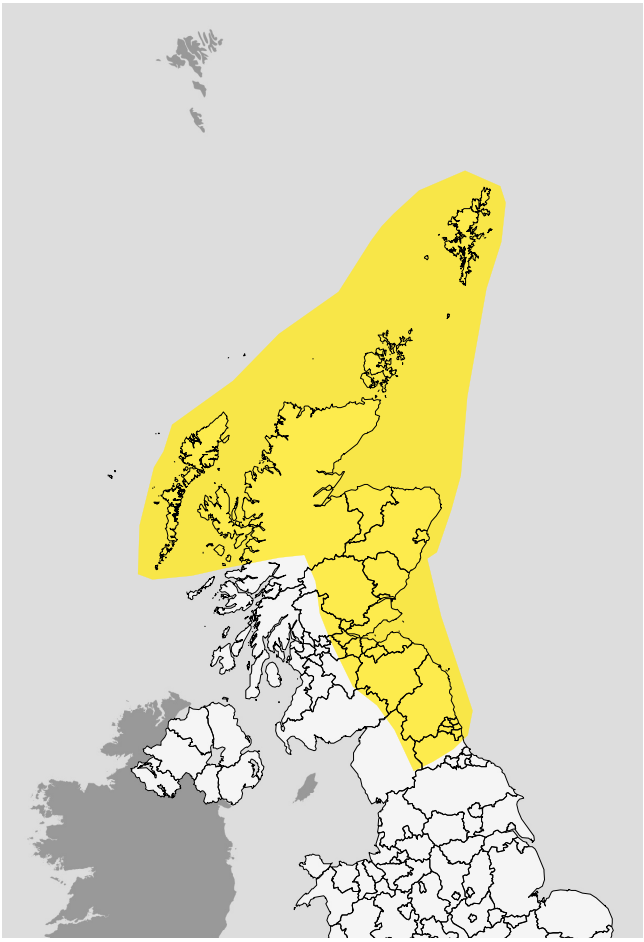
Yellow warning
Wind

Between
00:00 Mon 21 Oct 2024 and
09:00 Mon 21 Oct 2024



Strong winds from Storm Ashley may bring further impacts across the north and east of Scotland and northeast England before it moves away.

What to expect

- There is a slight chance that power cuts may occur, with the potential to affect other services, such as mobile phone coverage
- There is a small chance that injuries and danger to life could occur from large waves and beach material being thrown onto sea fronts, coastal roads and properties
- There is a small chance of longer journey times or cancellations as road, rail, air and ferry services are affected
- There is a slight chance of some damage to buildings, such as tiles blown from roofs
- There is a small chance that some roads and bridges could close
- There is a small chance of injuries and danger to life from flying debris

Further details

Storm Ashley will continue to bring strong winds through the early hours of Monday with 50-60 mph gusts, perhaps reaching 70 mph in exposure. Into Monday morning, gusts of 50-60 mph are likely to continue around Orkney and Shetland before easing as Ashley moves away.

What should I do?

Prepare to protect your property and people from injury. Check for loose items outside your home and plan how you could secure them. Items include; bins, garden furniture, trampolines, tents, sheds, and fences.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you are on the coast, stay safe during stormy weather by being aware of large waves. Even from the shore large breaking waves can sweep you off your feet and out to sea. Take care if walking near cliffs; know your route and keep dogs on a lead. In an emergency, call 999 and ask for the Coastguard.

Be prepared for weather warnings to change quickly. When a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for update

Warning has been extended south across parts of southeast Scotland and northeast England.

Very low likelihood of medium impacts
